

ABDUL SAMED SEIDU

Network Specialist | Telecommunications Engineer.

Tel.: +233 55 371 3780 | **E-mail:** abdul.samed85@yahoo.com

LinkedIn: <https://www.linkedin.com/in/abdul-samed-seidu-14b715179/>

PROFILE:

I am a professional Network Engineer with more than 3 years' experience in the design, implementation, and supporting scalable network infrastructures. I have skills in configuring routers, switches, firewalls, and wireless solutions across multi-vendor environments. I am proficient in network monitoring, troubleshooting, and performance optimization. Additionally, I have skill set in software engineering, web design and data analyst. Adept at working independently or in teams to ensure high availability and reliability of software and network services.

KEY COMPETENSE & SKILLS:

Routing & Switching

- LAN, WAN, VLAN
- DMVPN, IPSEC, BGP
- NAT, EIGRP, OSPF

Hardware Skills

- Hardware Assembly & Disassembly
- Hardware, Software & Network Troubleshooting
- System Setup and App. Installation

Software Proficiency

- VMware
- Microsoft Office Suit
- Data Visualization

PROFESSIONAL EXPERIENCE:

AH Consulting – Nairobi, Kenya

Network Specialist, September 2024 – February 2025.

Responsibilities

- ICT infrastructure assessment and stakeholder consultancy.
- Designs and planning of network infrastructure.
- Service centers and business process assessment.
- Data Analysis, development of technical strategies, documentation and Reporting.

Key Achievement

I collaborated with groups of technical professionals to conduct consulting and ICT infrastructure assessment on Government Service Centers and developed an improved network infrastructure design for future generation needs.

National Information Technology Agency (NITA) – Accra, Ghana

Technical Services Officer, May 2023 – June 2024.

Responsibilities

- Setup and optimization of network infrastructure, including routers, switches, and access points.
- Rigorous on-site and remote testing and analysis of SD-WAN deployed sites nationwide.
- Connectivity deployment to event and programs for the agency.
- Documentation and reporting to facilitate decision-making.

Key Achievement

I collaborated closely with a multidisciplinary team to plan and execute on-site evaluations of IT infrastructure, analyzing network performance, security protocols, and system reliability. These include travelling to over 370 different sites for assessment, demonstrating a comprehensive understanding of diverse technological environments and operational challenges.

ADDITIONAL EXPERIENCES:

Workshop and Training – Network Infrastructure Assessment and Auditing (May 2023), NITA, Ridge Accra.
National Service Personnel – Junior Corporate Affairs Officer (Nov. 2022 – May 2023), NITA, Ridge Accra.
Intern – Systems Design, Software Engineering. (Oct. 2022 – Nov 2022), Internship Ghana, Accra.
Intern – Emotional Intelligence. (Aug. 2021 – Nov. 2021) University of Professional Studies Accra (UPSA), Accra.

EDUCATION:

Telecommunication Engineering (MPhil)	- January 2025 - present
Cisco Certified Network Professional (CCNP) Training	- November 2024 - present.
Cisco Certified Network Associate (CCNA) Training	- August 2024.
Python Development (Professional Certification)	- October 2022.
IBM Data Science (Professional Certification)	- October 2022.
Information Technology Management (BSc.)	- August 2022.
